

Set 1

Find the next term from 1 to 20 questions

1. Look at this series: 2, 4, 6, 8, 10, ... What number should come next?
a. 11 b. 12 c. 13 d. 14
2. Look at this series: 58, 52, 46, 40, 34, ... What number should come next?
a. 26 b. 28 c. 30 d. 32
3. Look at this series: 40, 40, 47, 47, 54, ... What number should come next?
a. 40 b. 44 c. 54 d. 61
4. Look at this series: 544, 509, 474, 439, ... What number should come next?
a. 404 b. 414 c. 420 d. 445
5. Look at this series: 201, 202, 204, 207, ... What number should come next?
a. 205 b. 208 c. 210 d. 211
6. Look at this series: 8, 22, 8, 28, 8, ... What number should come next?
a. 9 b. 29 c. 32 d. 34
7. Look at this series: 80, 10, 70, 15, 60, ... What number should come next?
a. 20 b. 25 c. 30 d. 50
8. Look at this series: 36, 34, 30, 28, 24, ... What number should come next?
a. 20 b. 22 c. 23 d. 26
9. Look at this series: 22, 21, 23, 22, 24, 23, ... What number should come next?
a. 22 b. 24 c. 25 d. 26
10. Look at this series: 3, 4, 7, 8, 11, 12, ... What number should come next?
a. 7 b. 10 c. 14 d. 15
11. Look at this series: 31, 29, 24, 22, 17, ... What number should come next?
a. 15 b. 14 c. 13 d. 12
12. Look at this series: 21, 9, 21, 11, 21, 13, ... What number should come next?
a. 14 b. 15 c. 21 d. 23
13. Look at this series: 53, 53, 40, 40, 27, 27, ... What number should come next?
a. 12 b. 14 c. 27 d. 53
14. Look at this series: 2, 6, 18, 54, ... What number should come next?
a. 108 b. 148 c. 162 d. 216
15. Look at this series: 1,000, 200, 40, ... What number should come next?
a. 8 b. 10 c. 15 d. 20
16. Look at this series: 7, 10, 8, 11, 9, 12, ... What number should come next?
a. 7 b. 10 c. 12 d. 13
17. Look at this series: 14, 28, 20, 40, 32, 64, ... What number should come next?
a. 52 b. 56 c. 96 d. 128
18. Look at this series: 1.5, 2.3, 3.1, 3.9, ... What number should come next?
a. 4.2 b. 4.4 c. 4.7 d. 5.1
19. Look at this series: 5.2, 4.8, 4.4, 4, ... What number should come next?
a. 3 b. 3.3 c. 3.5 d. 3.6
20. Look at this series: 2, 1, 12, 14, ... What number should come next?
a. 13 b. 18 c. 28 d. 116

Set 2

Find the next 2 terms from 21 to 60 questions

21. 84 78 72 66 60 54 48

a. 44 34 b. 42 36 c. 42 32 d. 40 34 e. 38 32

Answer With Explanation**SET 1**

1. **b.** This is a simple addition series. Each number increases by 2.
2. **b.** This is a simple subtraction series. Each number is 6 less than the previous number.
3. **c.** This is an alternation with repetition series in which each number repeats itself and then increases by 7.
4. **a.** This is a simple subtraction series. Each number is 35 less than the previous number.
5. **d.** In this addition series, 1 is added to the first number; 2 is added to the second number; 3 is added to the third number; and so forth.
6. **d.** This is a simple addition series with a random number, 8, interpolated as every other number. In the series, 6 is added to each number except 8, to arrive at the next number.
7. **a.** This is an alternating addition and subtraction series. In the first pattern, 10 is subtracted from each number to arrive at the next. In the second, 5 is added to each number to arrive at the next.
8. **b.** This is an alternating number subtraction series. First, 2 is subtracted, then 4, then 2, and so on.
9. **c.** In this simple alternating subtraction and addition series; 1 is subtracted, then 2 is added, and so on.
10. **d.** This alternating addition series begins with 3; then 1 is added to give 4; then 3 is added to give 7; then 1 is added, and so on.
11. **a.** This is a simple alternating subtraction series, which subtracts 2, then 5.
12. **c.** In this alternating repetition series, the random number 21 is interpolated every other number into an otherwise simple addition series that increases by 2, beginning with the number 9.
13. **b.** In this series, each number is repeated, then 13 is subtracted to arrive at the next number.
14. **c.** This is a simple multiplication series. Each number is 3 times more than the previous number.
15. **a.** This is a simple division series. Each number is divided by 5.
16. **b.** This is a simple alternating addition and subtraction series. In the first pattern, 3 is added; in the second, 2 is subtracted.
17. **b.** This is an alternating multiplication and subtracting series: First, multiply by 2 and then subtract 8.
18. **c.** In this simple addition series, each number increases by 0.8.
19. **d.** In this simple subtraction series, each number decreases by 0.4.
20. **b.** This is a simple division series; each number is one-half of the previous number.

Answer With Explanation

SET 2

- 21. b.** In this simple subtraction series, each number is 6 less than the previous number.
- 22. c.** In this simple addition series, each number is 5 greater than the previous number.
- 23. e.** This is a simple subtraction with repetition series. It begins with 20, which is repeated, then 3 is subtracted, resulting in 17, which is repeated, and so on.
- 24. d.** This is a simple addition series with a random number, 18, interpolated as every third number. In the series, 4 is added to each number except 18, to arrive at the next number.
- 25. a.** In this alternating repetition series, a random number, 33, is interpolated every third number into a simple addition series, in which each number increases by 2.
- 26. b.** This is a simple addition series, which begins with 2 and adds 6.
- 27. a.** This is an alternating subtraction series with the interpolation of a random number, 5, as every third number. In the subtraction series, 3 is subtracted, then 4, then 3, and so on.
- 28. e.** This is a simple alternating addition and subtraction series. First, 3 is added, then 1 is subtracted, then 3 is added, 1 subtracted, and so on.
- 29. b.** This is a simple subtraction series in which a random number, 85, is interpolated as every third number. In the subtraction series, 10 is subtracted from each number to arrive at the next.
- 30. c.** Here, every other number follows a different pattern. In the first series, 6 is added to each number to arrive at the next. In the second series, 10 is added to each number to arrive at the next.
- 31. e.** This is an alternating addition series, in which 10 is added, then 5, then 10, and so on.
- 32. a.** This is a subtraction series with repetition. Each number repeats itself and then decreases by 9.
- 33. e.** This is an alternating subtraction series with repetition. There are two different patterns here. In the first, a number repeats itself; then 3 is added to that number to arrive at the next number, which also repeats. This gives the series 17, 17, 20, 20, 23, and so on. Every third number follows a second pattern, in which 3 is subtracted from each number to arrive at the next: 34, 31, 28.
- 34. d.** This is an alternating addition series with a random number, 4, interpolated as every third number. In the main series, 1 is added, then 2 is added, then 1, then 2, and so on.
- 35. e.** This is an alternating repetition series, in which a random number, 61, is interpolated as every third number into an otherwise simple subtraction series. Starting with the second number, 57, each number (except 61) is 7 less than the previous number.
- 36. d.** Here is a simple addition series, which begins with 9 and adds 7.
- 37. c.** This is an alternating repetition series, with a random number, 22, interpolated as every third number into an otherwise simple addition series. In the addition series, 4 is added to each number to arrive at the next number.
- 38. d.** This is an alternating addition and subtraction series. In the first pattern, 2 is added to each number to arrive at the next; in the alternate pattern, 6 is subtracted from each number to arrive at the next.
- 39. d.** In this simple addition series, each number is 5 more than the previous number.
- 40. b.** This is an alternating addition series, with a random number, 21, interpolated as every third number. The addition series alternates between adding 3 and adding 4. The number 21 appears after each number arrived at by adding 3.
- 41. e.** This is a simple subtraction series, in which 3 is subtracted from each number to arrive at the next.
- 42. e.** This simple addition series adds 4 to each number to arrive at the next.
- 43. d.** This is a simple subtraction series, in which 4 is subtracted from each number to arrive at the next.
- 44. d.** Here, there are two alternating patterns, one addition and one subtraction. The first starts with 2 and increases by 2; the second starts with 44 and decreases by 3.
- 45. a.** In this simple subtraction series, the numbers decrease by 3.
- 46. b.** In this simple addition with repetition series, each number in the series repeats itself, and then increases by 12 to arrive at the next number.
- 47. b.** This is an alternating addition and subtraction series, in which the addition of 4 is alternated with the subtraction of 3.

Series

PUCIT NTS Test Preparation

- 48. e.** Two patterns alternate here, with every third number following the alternate pattern. In the main series, beginning with 4, 3 is added to each number to arrive at the next. In the alternating series, beginning with 26, 6 is subtracted from each number to arrive at the next.
- 49. c.** This is an alternating addition series that adds 5, then 2, then 5, and so on.
- 50. d.** In this simple subtraction with repetition series, each number is repeated, then 3 is subtracted to give the next number, which is then repeated, and so on.
- 51. b.** Here, there are two alternating patterns, with every other number following a different pattern. The first pattern begins with 13 and adds 2 to each number to arrive at the next; the alternating pattern begins with 29 and subtracts 3 each time.
- 52. c.** Here, every third number follows a different pattern from the main series. In the main series, beginning with 16, 10 is added to each number to arrive at the next. In the alternating series, beginning with 56, 12 is added to each number to arrive at the next.
- 53. a.** This is an alternating addition series with repetition, in which a random number, 66, is interpolated as every third number. The regular series adds 2, then 3, then 2, and so on, with 66 repeated after each "add 2" step.
- 54. c.** This is an alternating addition series, with a random number, 35, interpolated as every third number. The pattern of addition is to add 2, add 5, add 2, and so on. The number 35 comes after each "add 2" step.
- 55. e.** This is an alternating subtraction series, which subtracts 5, then 2, then 5, and so on.
- 56. c.** This is an alternating subtraction series in which 2 is subtracted twice, then 3 is subtracted once, then 2 is subtracted twice, and so on.
- 57. a.** This is a simple addition series with repetition. It adds 3 to each number to arrive at the next, which is repeated before 3 is added again.
- 58. c.** Here, there are two alternating patterns. The first begins with 17 and adds 2; the second begins with 32 and subtracts 3.
- 59. a.** Two patterns alternate here. The first pattern begins with 10 and adds 2 to each number to arrive at the next; the alternating pattern begins with 34 and subtracts 3 each time.
- 60. a.** This is an alternating repetition series. The number 32 alternates with a series in which each number decreases by 2.

PUCIT NTS
TEST PREPARATIONS

Answer With Explanation

SET 3

- 61. b.** This is a simple alternating addition and subtraction series. The first series begins with 8 and adds 3; the second begins with 43 and subtracts 2.
- 62. d.** In this simple addition with repetition series, each number in the series repeats itself, and then increases by 12 to arrive at the next number.
- 63. b.** This is a simple subtraction series in which a random number, 93, is interpolated as every third number. In the subtraction series, 10 is subtracted from each number to arrive at the next.
- 64. a.** Two series alternate here, with every third number following a different pattern. In the main series, 3 is added to each number to arrive at the next. In the alternating series, 5 is subtracted from each number to arrive at the next.
- 65. d.** This series alternates the addition of 4 with the subtraction of 3.
- 66. a.** In this series, 5 is added to the previous number; the number 70 is inserted as every third number.
- 67. d.** This is an alternating division and addition series: First, divide by 2, and then add 8.
- 68. c.** This is a simple multiplication series. Each number is 2 times greater than the previous number.
- 69. b.** This is a multiplication series; each number is 3 times the previous number.
- 70. a.** In this series, the letters progress by 1; the numbers decrease by 3.
- 71. b.** In this series, the letters progress by 2, and the numbers increase by 2.
- 72. c.** The letters decrease by 1; the numbers are multiplied by 2.
- 73. d.** This is a simple addition series; each number is 3 more than the previous number.
- 74. c.** This is a simple subtraction series; each number is 4 less than the previous number.
- 75. b.** This is an alternating addition and subtraction series. Roman numbers alternate with Arabic numbers. In the Roman numeral pattern, each number decreases by 1. In the Arabic numeral pattern, each number increases by 1.
- 76. a.** This series consists of letters in a reverse alphabetical order.
- 77. b.** This is an alternating series in alphabetical order. The middle letters follow the order ABCDE. The first and third letters are alphabetical beginning with J. The third letter is repeated as a first letter in each subsequent three-letter segment.
- 78. b.** Because the letters are the same, concentrate on the number series, which is a simple 2, 3, 4, 5, 6 series, and follows each letter in order.
- 79. d.** The second and forth letters in the series, L and A, are static. The first and third letters consist of an alphabetical order beginning with the letter E.
- 80. c.** The first two letters, PQ, are static. The third letter is in alphabetical order, beginning with R. The number series is in descending order beginning with 5.
- 81. c.** The first letters are in alphabetical order with a letter skipped in between each segment: C, E, G, I, K. The second and third letters are repeated; they are also in order with a skipped letter: M, O, Q, S, U.
- 82. a.** In this series, the third letter is repeated as the first letter of the next segment. The middle letter, A, remains static. The third letters are in alphabetical order, beginning with R.
- 83. d.** In this series, the letters remain the same: DEF. The subscript numbers follow this series: 1,1,1; 1,1,2; 1,2,2; 2,2,2; 2,2,3.
- 84. c.** There are two alphabetical series here. The first series is with the first letters only: STUVW. The second series involves the remaining letters: CD, EF, GH, IJ, KL.
- 85. a.** The middle letters are static, so concentrate on the first and third letters. The series involves an alphabetical order with a reversal of the letters. The first letters are in alphabetical order: F, G, H, I, J. The second and fourth segments are reversals of the first and third segments. The missing segment begins with a new letter.
- 86. a.** This series consists of a simple alphabetical order with the first two letters of all segments: B, C, D, E, F, G, H, I, J, K. The third letter of each segment is a repetition of the first letter.
- 87. d.** There are three series to look for here. The first letters are alphabetical in reverse: Z, Y, X, W, V. The second letters are in alphabetical order, beginning with A. The number series is as follows: 5, 4, 6, 3, 7.
